

**Taikisha Ltd. Awarded 235 million RMB (approx. 3.3 billion yen) Contract by Shenyang Brilliance Jinbei Automotive for New Paint Shop**

Taikisha Ltd. (President: Yoshiro Nakaya, Head Office: Shinjuku-ku, Tokyo, hereinafter referred to as “Taikisha”) has received an order totaling 235 million RMB (approximately 3.3 billion yen) from local Chinese car manufacturer, Shenyang Brilliance Jinbei Automotive Co., Ltd. (hereinafter referred to as “Shenyang Brilliance Jinbei Automotive”) for the construction of a new paint shop.

- Project Background

This project is for a new paint line for compact passenger cars for the Liaoning, China based Shenyang Brilliance Jinbei Automotive’, capable of producing approximately 130,000 units per year. The order includes a paint finishing system, conveyor system, automatic paint system and paint supply system excluding the base coating line, and is a complete package order for the paint shop excluding the building.

Shenyang Brilliance Jinbei Automotive, one of the core companies belonging to Brilliance China Automotive Holdings Ltd., is a wholly government-owned company under the jurisdiction of Liaoning Province.

This project is part of a production capacity increase program based on the domestic brand cars incentive policies implemented by the government.

- Key factors for being awarded this contract

It has been 15 years since Taikisha established its joint company, Wu Zhou Taikisha Engineering Co., Ltd (hereinafter referred to as “Wu Zhou Taikisha Engineering”). Taikisha also established a conveyor system manufacturer in the Tianjin area in 2004 in order to increase local procurement.

The key factors for being awarded this contract are the above-mentioned localization efforts based on our corporate policy, our resource saving and energy conservation technologies, and the excellent reputation of our construction works in China.

Taikisha feels a good response about the entry into the fields of Chinese capitalized car manufacturers which have energy and resource saving technologies by receiving order of above-mentioned project continuously new paint shop which has production capacity of 150,000 units per year from Tianjin FAW XIALI Automobile Co., Ltd. in August this year.

- The future

Chinese car manufacturers have been consistently carrying out domestic brand cars promotion programs based on the Chinese government's policies for cultivating the automobile industry. Taikisha has been reinforcing its sales activities to these local and independent Chinese car manufacturers. The company has received orders for the construction of paint shops from some of these independent automakers, including Chana Automobile Co., Ltd., Dongfeng Motor Corporation, Guangzhou Automobile Industry Group Co., Ltd, and Tianjin FAW XIALI Automobile Co., Ltd., and has delivered our products to half of the top 10 independent automakers in sales in the Chinese market last year.

Taikisha aims to aggressively promote business development in China in the future.
