Taikisha Ltd.

Taikisha Ltd. starts growth initiatives in Russian Market

—Established a Russian Subsidiary with a New Paint Finishing Project Award—

Taikisha Ltd. (President: Eitaro Uenishi, Head Office: Shinjuku-ku, Tokyo, hereinafter referred to as “Taikisha”) was awarded a contract from LLC “PCMA Rus” to engineer, procure and construct a new automotive paint finishing system in Russia, and established its subsidiary, “Taikisha (R)” LLC, in Kaluga, Russia. LLC “PCMA Rus” is a joint venture company established in Russia between PSA Peugeot Citroën and Mitsubishi Motors Corporation.

1. Project Awarded:

The project awarded to Taikisha is a new paint finishing system which will be constructed in the new paint shop building for LLC “PCMA Rus” automotive assembly plant. This plant will be constructed in Kaluga, Russia designed to build SUVs and Cars. Taikisha has executed numerous projects in Europe especially in the UK and France for the past 20 years. Taikisha believes customers evaluated Taikisha’s track record and the project execution capabilities highly which led into the award of this project.

2. “Taikisha (R)” LLC:

Taikisha promotes “global business initiatives” as one of the corporate strategies and drives forward “localization” for their projects. Due to this strategy, Taikisha has set up the “Taikisha (R)” LLC in Kaluga, Russia to enhance local business activities including local procurement and construction.

3. Russian Market:

Although the Russian economy was affected by the recent global economic downturn, its market has received numerous investments by the automotive manufacturers including European and Japanese customers and highly expected for future growth opportunity. With the newly established “Taikisha (R)” LLC, Taikisha plans for business growth initiatives in Russian market as a part of the strategic global business deployment.
